DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 10/04/04 have been fully considered but they are not persuasive. The applicant argues that the prior art fails to interpolate the complementary color subarrays. The examiner strongly disagrees. Takizawa et al discloses in col. 8, lines 44+ that the various mosaic filters such as complementary colors are used (see fig. 4-6). Therefore, the rejection of Claim 3 is maintained.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 2. Claim 3 is rejected under 35 U.S.C. 102(e) as being anticipated by Takizawa et al. (US 6,388,706).

Regarding Claim 3, Takizawa et al teaches an interpolator for the color subarrays of a complementary-color filtered array (7a; see also col. 8, lines 44+), a filter coupled to the output of the interpolator (referred to as performing white balance and gain

Art Unit: 2612

adjustments) to adjust the interpolated colors at each pixel by adjusting with an imbalance factor (coefficients Ar, Ag, and Ab) for the pixel (col. 13, lines 53- col. 14, line 23).

Allowable Subject Matter

3. Claims 1 and 2 are allowed.

The prior art neither teaches nor fairly suggests a method of interpolation for a complementary-color-filtered array image, comprising the steps of:

- (a) provide a complementary-color-filtered array of pixel values with yellow pixel values Ye on a first subarray, cyan pixel values Cy on a second subarray, magenta pixel values Mg on a third subarray, and green pixel values G on a fourth subarray;
 - (b) interpolating the subarray of yellow pixel values to form a yellow array;
 - (c) interpolating the subarray of cyan pixel values to form a cyan array;
- (d) interpolating the subarray of magenta pixel values to form a magenta array;
 - (e) interpolating the subarray of green pixel values to form a green array;
 - (f) adjusting the color values for each pixel by
 - (i) subtracting a quantity (Ye+Cy-2*G-Mg)/4 from Ye to generate the pixel's adjusted yellow value where Ye is the pixel's yellow value from step (b), Cy is the pixel's cyan value from step (c), Mg is the pixel's

Page 4

Application/Control Number: 09/745,132

Art Unit: 2612

magenta value from step (d), and G is the pixel's green value from step (e);

- (ii) subtracting the quantity (Ye+Cy-2*G-Mg)/4 from Cy to generate the pixel's adjusted cyan value;
- (iii) adding the quantity (Ye+Cy-2*G-Mg)/4 to Mg to generate the pixel's adjusted magenta value; and
- (iv) adding the quantity (Ye+Cy-2*G-Mg)/8 to G to generate the pixel's adjusted green value, as claimed in claim 1.

Claim 2 is substantially similar to Claim 1.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
